### PROFILE SUMMARY

Enthusiastic Front-End Web Developer with expertise in HTML, CSS, JavaScript, and React.js, dedicated to creating responsive and visually appealing web applications. Skilled in building dynamic user interfaces, managing component state, and integrating APIs to enhance user experiences. Possesses a foundational understanding of SQL and Python, providing insight into backend operations. A quick learner with strong problem-solving skills, eager to contribute to innovative development teams.

### PROJECT

#### 1. Personal Portfolio

##### Aim:

Developed a responsive personal portfolio website to showcase my skills, projects, and experience in front-end web development.

##### Tools:

HTML, CSS, Javascript, Email Js.

##### About the project:

Designed and developed a responsive personal portfolio website using HTML, CSS, and JavaScript to showcase my skills and projects. Integrated a contact form (EmailJS), dark mode toggle, and smooth UI animations for an interactive experience. Deployed the site using GitHub .

#### 2.Weather App

##### Aim:

Developed a Weather App to provide real-time weather updates for any city using the OpenWeatherMap API.

##### Tools:

HTML, CSS, Javascript, React Js.

##### About the project:

Developed a Weather App using React.js and the OpenWeatherMap API to provide real-time weather information based on user input.

#### 3.To-Do-List

##### Aim:

Build a To-Do List app where users can add, edit, delete, and mark tasks as completed. This app allows users to manage their tasks in a simple, interactive interface.

##### Tools:

HTML, CSS, Javascript, React Js.

##### About the project:

Built a To-Do List app using React.js that allows users to add, edit, delete, and mark tasks as completed. The app features a responsive UI and efficient state management using React hooks.

# CERTIFICATE

Aimore Technologies

FRONT-END WEB DEVELOPMENT - 2024
